

Defender Range

Portable welding frames & bespoke booths and curtains

The necessary solution for employee protection.

WELDING CURTAINS

These entry level screens come with a solid 1-piece welding curtain, attached through the top rail and tensioned to both bottom corners with the two retention clips supplied. These can be assembled in minutes using the familiar "click & lock" system, whilst the lightweight frame design means it can be easily manoeuvred around the workshop. These screens adhere to EN1598 welding standard, therefore offering all the necessary protection from welding flash & ignition.

STOCK COLOUR	RED
