

# WELDING FRAMES/CURTAINS

## Defender Range

**Portable welding frames & bespoke booths and curtains**

**The necessary solution for employee protection.**

Our Defender range of portable welding frames have become synonymous for both quality and durability. As well as our Defender range we also manufacture bespoke PVC welding curtains, welding booths and PVC strip curtains.

The most popular sized screen, this is a lightweight, portable frame that is assembled via a click lock system. Available in green or red, the high visibility curtain contained with it conforms to EN1598 welding standards. Eyelets on all 4 sides allow it to be used on other frames.
